

HANDMADE IN FLORENCE

LINEA PB
RECOMMENDED SPARE PARTS

Dear Friends,

On behalf of the After Sales Department, below please find three spare parts lists as follows:

1. "Essential" spare part kits for the Linea PB which are not currently in your warehouse in light of the new and specific Linea PB technology. **The first kit for the Linea PB machine orders will be shipped, at an additional cost, with the first out-going machine.** Arianna Zecchi will follow up with an order confirmation for this kit for all those who have ordered at least 1 Linea PB. We highly recommend the purchase of 1 kit for up to 3 machines, 2 kits for up to 6 machines and 3 kits for up to 12 machines. Therefore, please submit additional kit orders to Nuova Ricambi to ensure you cover your eventual needs as per these recommendations.
2. In addition to point 1, please find an additional "suggested" spare parts list.
3. Please find, moreover, the "suggested" solid state relays.

We encourage you to proceed with equipping your warehouses with these items so that you are prepared once you receive the Linea PB. To place your orders please contact Annika at annika@nuovaricambi.it. For further information or clarification, please contact Ettore Scagliola at ettore@lamarzocco.com.

ESSENTIAL SPARE PARTS KIT (OBLIGATORY)
